It will be seen by Dr. Beckwith's letter of June 1, 1845, that he has adopted the only safe plan for himself and the public against these miscreants, by having placed the sale of his medicine in the hands of one special agent, where every one who wishes to be supplied with the genuine article must apply.

Dr. T. W. Dyott & Sons, of the Columbian College, No. 132 North Second street, Philadelphia, are the only persons appointed to supply the above pills in quantity, as no counterfeit article is permitted in their establishment. Dealers and the public will be safe in supplying themselves as above.

branches of a thorough English and French education.

The English department will be conducted by a lady who was formerly a teacher in the Albany Female Academy, and has been for several years teaching in the family of Mrs. Eliason.

Great pains will be taken to teach well the principles of science, the application of which will require diligent study on the part of the pupil; and in order to accomplish fully this important object, teachers of the highest qualifications will be provided for each department. The French teacher will reside in the family, and the pupils will be taught to speak accurately, as well as to read and write the French language.

To those young ladies whose parents desire it, a course of instruction will be given in Latin, as the foundation of modern languages.

The government will be parental, and conducted on Christian principles. Alexandria is admirably located for an institution of this kind, being retired and healthy, combining the advantages of town and country. Members of Congress who have daughters to educate, will find this institution convenient for that purpose, as steamboats ply hourly between Alexandria and Washington city.

PROSPECTUS OF THE NEW LIBRARY
OF LAW AND EQUITY, under the direction of Francis J. Troubat, esq., of Philadelphia;
Hen. Ellis Lewis, of Lancaster; and Wilson Mecanisms, and the set productions of English law authors, without regard to priority of claim on the part of any American publisher. Such books are now notoriously too dear. The reason is, that as fast as they appear, they become monopolies in the hands of booksellers in the Atlantic cities. Under the plea of right, acquired by the addition of notes of American decisions, the latter claim an undivided title to those works, and set a burdensome price on them. The publishers of the work now offered to the profession throughout the Union, will not respect such titles, but will reprint the standard British law books as fast as they emagate from the London market. Should new editions of the works of such writers as Starkie, the Chittys, Stephen, and Archbold, appear, they shall also be included; and digests of equity and law decisions—works which have been studiously kept out of the Law Library published at Philadelphia—shall have a place in the proposed new one, together with every new valuable English treatise on chancery or common law.

It To This work will be issued monthly, in num-

new valuable English freatise on chancery or common law.

This work will be issued monthly, in numbers of 160 pages, printed on fine white paper, end good new long primer type, at seven dollars per annum, payable half yearly.

ELIXER OF CALISAYA BARK.

ELIXER OF CALISAYA BARK.

THIS preparation is particularly recommended to persons of weak habit, and to such as reside in low situations, where the nervous system is, in general, more or less relaxed. The addition of certain ingredients has so completely disguised the taste of the bark, as to render this efficacious remedy, a most palatable cordial; thus peculiarly adapting it to conquer that repugnance which most persons experience after taking for some time bitter potions, as it combines the greatest efficacy with a highly agreeable flavor. As a preventive of the ague it has superseded the use of all other remedies, in such parts of the country as it is known. Prepared only by J. Milhau, No. 183 Broadway, New York. Price §1 per quart bottle.

GREAT ENGLISH REMEDY

T. W. & R. C. SMITH, Wolf stree At drin, D. C., Machiniate, Iron, Brass, as

the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine in the curse of pulmonary success, warrants the American agent in soliciting for treatment the WORST POS-SIBLE CASES that can be found in the community; cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished physicians as confirmed and incurable. The Hungarian Balsam has cured, and will cure, the most desperate of cases. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counternet the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, Pain in the Side and Chest, Irritation and Soreness of the Lungs, Bronchitis, Difficulty of Breathing, Heetic Fever, Night Sweats, Emachation and General Debility, Asthma, Influenza, Hooping-Cough, and Croup.

17-Sold in large bottles at \$1 per bottle, with full directions for the restoration of health.

Pamphleta, containing a mass of English and American certificates, and other evidence, showing the unequalifed merits of this great English remedy, may be obtained of the agents gratuiously.
